Aged? Many beers have a long maturation, but this one has only 24-36 months in oak barrels. Pale? This beer has a gold to bronze color, rather than the burgundy more common in the breweries of West Flanders. This is the 'mother beer,' used in various quantities to blend with the other Petrus beers to give them their unique and very distinctive taste. Petrus Aged Pale is rather sour with a bite like the best brut Champagne. A connoisseur's delight and the only one of its kind in the U.S.
