There's a lot 'neverending' about IPAs around Stone. To begin with, Stone IPA is one of the very first and most popular West Coast-style IPAs on the planet. And the brewery's celebrated explorations of double IPAs, session IPAs, fruited IPAs and ultra-fresh triple IPAs are an integral part of Stone's legacy. Yes, they may love IPAs passionately and perpetually be on a quest for IPA nirvana, but this particular one actually happened onto the scene to aid in your noble pursuit of neverending good times.
