To make this beer, Sly Fox's coveted Russian Imperial stout was carefully aged in Manatawny Still Works premium oak cooperage, in which a batch of Nihilist whiskey had matured for 3+ years. Rich vanilla and caramel notes imparted by the barrels complement the robust chocolate and roasted malt character of the original liquid and transform the beer into a delicious doppelgänger that any oligarch would praise. With a warm and pleasant denouement, Barrel-Aged Nihilist will get you through the darkest of nights.
