

Lagunitas Brown Shugga'		
STYLE American Strong Ale	ABV 10.00%	IBUS 51
FOOD PARINGS Braised Shanks, Pumpkin Spiced Desserts		
Originally a failed attempt at a 1997 batch of Olde GnarlyWine Ale resulting in an all-new-beer-style Lagunitas likes to call... irresponsible, this brew is something unique. Feeding brown cane sugar to otherwise cultured brewery yeast is a'kin to feeding raw shark to your gerbil. It is unlikely to ever occur in nature, without human intervention. And it looks weird besides. But it has happened and now it's too late.		SCORE
